

INVITATION
to
ZERO REGIO Final Conference
at
WHEC 2010 (Essen, Germany, May 2010)

Recent Experience with Hydrogen Vehicles and Refuelling Infrastructure

Zero Regio is a European project on demonstration of fuel-cell vehicles and hydrogen infrastructure. Demonstration involves 350 bar as well as 700 bar technology. Hydrogen infrastructure and fuel-cell cars (Daimler F-Cell and Fiat - FC Panda) are demonstrated under real life conditions in Mantova City, Italy and Frankfurt, Germany. At both sites a multi-energy public service station selling hydrogen along with other motor fuels has been built. In Germany by-product hydrogen from a chemical plant is used where as in Italy an on-site hydrogen production facility is realised and operated.

The Zero Regio final conference to be held at the WHEC 2010 will present results obtained during the project which began in Nov. 2004. The conference provides an ideal forum for people engaged in similar demonstration activities around the world to meet, share results and experience, learn from each other and enhance networking required for a quicker development and market penetration of hydrogen and fuel-cell technology in transport.

The ZERO REGIO project team will present results on the following subjects:

- FC-Vehicle demonstration and operational experience
- Experience with H₂-Infrastructure in operation
- Experience with approval formalities for infrastructure
- FC-Car registration and insurance issues
- Socio-economics and acceptance
- Assessment methods for demonstrations
- Future larger demonstrations

WHEC 2010 participants are cordially invited to attend the Zero Regio conference and take part in the discussions and the Forum session. Zero Regio Conference session will be held on 18.05.2010 in parallel to WHEC sessions. Please register (early bird rates until 31.12.2009) under www.whec2010.com

ZERO REGIO Final Conference at WHEC 2010

Session Chair – Dr. Heinrich Lienkamp / Dr. Ashok Rastogi
Infraserv Höchst, Frankfurt, Germany

Programme

1. Conference Inauguration
 - Welcome address by coordinator – H. Lienkamp
 - H2FC in transport in European cities – European Commission
 - Conference Agenda – A. Rastogi
2. Hydrogen Infrastructure developed in Zero Regio
A. Boening, L. Grimolizzi, L. Basini
3. Fuel-Cell Fleet demonstration
R. Grasman, A. Melzi
4. Fleet and Infrastructure data evaluation
A. Perujo, P. Nauwelaers
5. Socio-economic evaluations
P. Helby, A. Hansen, S. Dorigoni
6. Safety and Approval of Infrastructure and Vehicles
L. Komrowski, S. Sutti
7. Facilitated Forum with audience participation
Forum of experts from Industry and Govt.
Facilitator – A. Rastogi
8. Closure resume by Coordinator – H. Lienkamp
